

Pregnancy Care Centers

Listed are many pregnancy support centers in Montana. They provide a range of services, which may include testing, education, ultrasound services, and limited counseling. We do not specifically endorse these clinics, instead list them to provide a starting point when researching clinics that do not provide abortions or referrals to abortions.

Vote to protect life

Vote NO to CI-128

What CI-128 Is!

The constitution of the state of Montana is the basic governing document of the state. It sets the parameters for every other law that the legislature may seek to establish. The judicial branch of the state is bound to uphold the constitution as the supreme law of the state. The executive branch of the state swears to "support, protect and defend the constitution...of the state of Montana." Any change to the constitution should be a matter of grave importance to the citizens of that state.

Constitutional Initiative 128 is a change to the Constitution of the state of Montana. It would amend the Constitution to add this new right, "There is a right to make and carry out decisions about one's own pregnancy, including the right to abortion."

The supreme law of the state of Montana would state that abortion is a fundamental right of every citizen. That would put abortion on the same level as the right to freedom of religion, or speech. Is abortion really that kind of fundamental right?

What CI-128 Does!

Makes Montana one of the most pro-abortion states

At this date only Montana and seven other states have abortion as a constitutional right on the ballot for this November. There are yet no other states granting this right by constitution.

Allows for unregulated abortions

At this date only eight states have laws allowing abortion without any gestational age restrictions. Montana would be the ninth.

Designates any health care provider fit to prescribe abortion

The text of the amendment allows any "health care professional" to prescribe an abortion.

By leaving "health care professional" undefined a wide range of unqualified people can be used to permit an abortion.

Renders any health concern an excuse for abortion

The text of the amendment states that abortion can be ordered to protect "the life or health of a pregnant patient." By leaving "health" undefined nearly any concern can be used as an excuse for an abortion.

Prevents the legislature or executive branch from regulating abortion

The text of the amendment declares that after fetal viability, "in no circumstance shall the government deny or burden access to an abortion..."

Who We Are

Yellowstone Valley

Lutherans for Life Ch. #331

Background

We are an active life chapter under the National Lutherans for Life organization. We meet once a month and have various projects throughout the year to support and educate on various life issues from womb to end of life. Our chapter members are from several area LCMS churches in the Billings area.

Values

Life is ordained by God, and is a gift of God. As His Son, Jesus, said in John 10:10b, "I have come that they may have life and have it to the full."

Goals

We love because God first loved us. We want to be Gospel-motivated voices for life, including the unborn, mothers with unexpected pregnancies, and those making end of life decisions.

Get Involved

Get involved in sharing God's value of life with others in our community and congregations - email yvlfl331@gmail.com for more information.
